PORTABLE AIR & ENERGY SOLUTIONS

## COMPANY PROFILE – January 2012

Atlas Plant Hire, is 100% South African, and was founded in 1988 in Port Elizabeth to serve the Construction, Mining, Quarry and Industrial sectors nationally.

Atlas Plant Hire is growing and expanding, with fleet and location development playing a major part of our strategic roll out for the future. Today the company boasts over 800 items of plant which includes Compressors, Generators and Compaction Equipment delivered to all points of need. Atlas Plant Hire remains one of the fastest growing names in the plant hire industry.

Due to market demand a service was opened in Midrand in 1999. This was soon followed by service centres in Rustenburg and Lephalale thereafter.

As a member of the CPHA (Contractors Plant Hire Association) and the MBA (Master Builders Association), Atlas Plant Hire has gained an enviable reputation for service and quality and adheres to a strict Code of Ethics.

With our modern fleet of compressors, generators and compaction equipment and highly qualified staff, customers are assured of receiving the quality of service they deserve with their requirements met in a friendly and efficient manner.

### **Staff**

Atlas Plant Hire has a staff compliment of over 72 people, with each and every one playing an indispensable role in meeting and exceeding the customer's expectations.

### **Compressor Hire**

Atlas Plant Hire has a large range of modern Portable Diesel Compressors ranging from 140 CFM to 1600 CFM at 7 – 10 BAR pressure variations as well as a range of High Pressure Compressors of 825CFM at 12 BAR, 1070 CFM at 24 BAR and 1000 CFM at 25 BAR.

A range of Electric Compressors are also available from 70 CFM to 1500 CFM. The depth of our fleet together with our expertise enables us to supply any combination of compressors to suit all needs.

### **Generator Hire**

We have a modern range of portable and skid mounted diesel Generators, ranging from 15 kVA to 1000 kVA. We also offer 500 kVA Auto-Switching Step-up and Step-down Transformers for 400V and 525V voltage variations. Specialized Projects include installations up to 16,000 kVA / 16 MVA. In 2009 the introduction of lighting masts has proven to be a huge success.

### **Compaction Equipment Hire**

To further enhance our range of products we have ventured into the compaction equipment market by including Sit-On Rollers, Pedestrian Rollers (walk behind) and Rammers.

Listening to the market, guides Atlas Plant Hire's daily actions. This means that we are

PORTABLE AIR & ENERGY SOLUTIONS

regularly adding new products, equipment and services to enable us to meet all customer demands countrywide. This marketing focus translates directly into our ability to assist customers with all their compressed air, generator and compaction equipment requirements.

### **On Site Training**

With the constant changes in our industry and the necessity to continue the upgrading of our equipment, our staff is required to attend training courses to keep up with technology.

With this in mind, we are the first in the industry to offer an additional service of providing a dedicated “Product Support” person, whose main function is to call on all sites and offer training to the site staff on the correct use of the ancillary equipment and all compressors, generators and rollers in an effort to improve productivity and prevent down time, due to lack of knowledge by the end user. This has long term benefits for both the company and our customers.

### **Ancillary Equipment and Accessories**

Atlas Plant Hire includes in its modern equipment fleet the following:

- Rock Drills, Oil free Pneumatic Breakers and Chipping Hammers.
- Moils / Chisels / Clay Spades / Asphalt Cutters / Taper Bits and Taper Rods.
- Hoses are of the highest quality and are utilized on various applications.

### **Service and Repairs**

We offer on-site technical training of operators when delivering equipment to new clients.

All our equipment is serviced at our depots by trained technicians. Long-term hires are monitored and services are done on time in the field. In the unlikely event of a breakdown, a replacement compressor will be delivered to site.

### **24 hour service**

Atlas Plant Hire offers a 24hour 365 day a year service, from all its service centres. Standby staff is only a cell phone call away on weekdays, weekends and public holidays. We ensure that staff is available during shutdown periods for Factory Maintenance, Mining and Construction Projects. New and advanced technology provides equipment users with greater uptime and more efficient performance.
